Thank you for expressing an interest in our Building Craft Programme. Please read and complete this application form and return it to us with the accompanying documents by 9th March 2020.

Building on the success of our established Building Craft Programme, the current programme has been designed to offer successful applicants a structured eight-month programme of tuition and practical experience to enhance the skills already shown. Practical experience will be delivered by placements—involving restoration and conservation work on historic buildings as well as the creation of new buildings.

To be considered for one of the places, you must have attained, or be successfully working to attain, at least NVQ/SVQ Level 2 or 3, an equivalent qualification in traditional building skills from a recognised authority or have an equivalent amount of work experience in your chosen craft. If you are unsure if you have the required level of experience please contact us.

The opportunity to join our Building Craft Programme is open to all who have, or expect to have, the appropriate qualification, whether in education or work, but you will need the support of your college or employer to allow your full attendance during the course of the programme.

We are looking for those with the will to succeed in the rapidly expanding traditional building and conservation sector, and the desire to use and develop their skills to improve the built environment for this, and future, generations.
